

It is 'high' time to move away from mainstream politics and take a sensible attitude towards our world, on local, national and international levels.

*By giving ONE of the three votes you will have in the local elections, to me, Alun BUFFRY, your legalise cannabis candidate, you will be sending a message to the Government and helping to elect a "non-politician" who cares about people, the community and the environment.*

If elected to be one of your University ward councillors, I will do my best to push forward for the legal uses of cannabis to help us all.

*And I will do my best to represent YOU!*

*For more information or to speak to me personally, please phone me on 01603 442215*

ELECTION COMMUNICATION  
NORWICH CITY COUNCIL ELECTIONS UNIVERSITY WARD  
THURSDAY 10 JUNE

***TIME FOR A CHANGE?***

***We need more relaxed attitudes towards cannabis users who do no harm.***

***We need to reduce crime and make our streets safer and cleaner.***

***We need better youth recreational facilities.***

***We need to use bio-fuels in our cars and buses to cut down on pollution.***

***We need to improve public services and provide free hospital transport for all.***

**VOTE**  
**ALUN**  
**BUFFRY**

*Putting people first*

My name is ALUN BUFFRY and I am standing in this election because I want to try to make changes and improve living conditions for us all. The authorities should put people and the environment before big business and profits.

I am 54-years-old and I have lived in Norwich for over 35 years. I came here to study at UEA and graduated in Chemistry. I stayed here for one reason—I liked the city. But during that time I have seen several aspects of our life deteriorating. We are all now victims of pollution and we daily read about crime and violence on the streets and even in our houses. From nuisance crowds of youngsters on the streets, to problems with parking—the authorities just do not seem able to offer viable solutions. I want to try to help change that.

## A vote for me is a vote for you

Please don't let the word "cannabis" put you off, after all, it is a plant that grew naturally and was used widely here for centuries.

Also called hemp, it has many uses, from the production of valuable medicines to pollution-free fuels. It's local cultivation and use for paper, plastic and building materials would boost employment and the local economy.

*Legalisation and utilisation of cannabis is about more than just a tokes.—  
It's a solution to many problems.*

## TRADITIONAL USES OF CANNABIS / HEMP
