

FUEL CRISIS?

Our Government allows its people to suffer a fuel crisis, **WHY?**

Our Government allows a war in Iraq to 'secure' fuel, **WHY?**

Our Government knows there is a simple solution to a fuel crisis but does absolutely nothing about it, **WHY?**

Our Government also knows this solution would also give us a new source for paper, rope, fibre, paints, sealants, food, oil, medicine!

So **WHY does the government insist it knows best?**

WHAT IS IT THAT COULD CHANGE THE WAY WE LIVE?

HEMP!

(A.K.A CANNABIS, MARIJUANA, DOPE)

The Legalise Cannabis Alliance (A Registered political Party) would like to draw your attention to **HEMP**; this one plant could save the country!

If you don't usually vote, next time please write on your polling card
"HEMP FOR FUEL!"

If the Government continues to raise the price of fuel, soon no one will be able to afford to drive; Henry Ford's first car was built and fueled by **HEMP!**
We could all be doing more to help the environment by using **HEMP** fueled cars!
