CANNABIS

'Soapbar'

This is an attempt to start a campaign to rid Britain of adulterated cannabis.

In this country, the awful truth about cannabis is that the majority of it in Britain is low quality and often adulterated by criminals to make more money. One of the most common of these adulterated hashes is called SOAPBAR because a 250g bar is shaped like a bar of soap.

Before you light up your next joint of soap consider that you rolled it because you wanted to smoke hash - Now there may well be a tiny amount of low grade hash in that joint but you may also be smoking any of the following substances **beeswax, turpentine, milk powder, ketamine, boot polish, henna, pine resin, aspirin, animal turds, ground coffee, barbiturates, glues and dyes plus carcinogenic solvents such as Toluene and Benzene** - Even the less noxious ones are not what you set out to smoke and the rest of them are not to be recommended to anyone for obvious reasons. If your pint down the pub contained any of these nasty things would you not complain?

DON'T SMOKE SOAP - DON T BUY SOAP - DON T SELL SOAP

Soapbar is rubbish - Tell your dealer that it s just not good enough and if he/she can t supply with good quality cannabis then you'll go elsewhere. It can be found, even in Britain - check it out.

DON'T SMOKE SOAP - DON T BUY SOAP - DON T SELL SOAP

European countries where cannabis is tolerated or legal are countries where you won t find soapbar, these lucky citizens smoke good quality cannabis. In Britain as a direct result of prohibition we get soapbar. When will the government realise that they are harming the people they are supposed to be protecting. Do they know all these arguments but just don t have the backbone to do anything about it?

DON'T SMOKE SOAP - DON T BUY SOAP - DON T SELL SOAP

In the government's own words "JUST SAY NO" (to crap hash). If you don t buy it then soon you won t be able to buy it but you will be able to buy something a lot better.

Join us in saying "NO" to crap hash and tell your friends.

DON'T SMOKE SOAP - DON T BUY SOAP - DON T SELL SOAP
