

If every cannabis user in Norwich voted for a Legalise Cannabis Alliance candidate, we would have 13 councillors in office.

Almost any product made from wood, cotton or petroleum (including plastics) can be made from hemp. All this is pretty much hidden behind the illegal status of cannabis which is maintained by global industry and politics.

Whether it is for industrial use, self-medication, recreational purposes, relaxation, meditation, as a Sacrament, or just to help you sleep ... it's time the uses of cannabis are allowed to flourish again without fear of persecution or prosecution. The more people **WE** can get to shout, the sooner **THEY** have to listen.

**Your vote will add another voice.**

Politicians want to be politicians.  
I want to get things done.
