**DON BARNARD**  
**NORWICH SOUTH**

USE YOUR VOTE FOR

***Better health—safety first***  
***Fairer law—human rights***  
***Extra revenue—lower taxes***  
***Less pollution—cleaner air***  
***Cleaner fuel—cheaper transport***  
***Legalisation of cannabis hemp***  
***would increase access to a***  
***natural medicine and allow for***  
***better protection of the vulnerable***  
***without interfering with personal***  
***and private choice.***  
***More than just a pipedream!***

“A vote for the Legalise Cannabis Alliance offers a viable alternative to mere abstention. The implementation of our policies would offer us all a brighter future. It’s not just about getting high, it’s about medicine, justice, the environment, harm reduction, fuel and transport, pollution, agriculture, trade, taxation and revenue, food, poverty and more.“

Don Barnard is 63-years young with two grown up children and is medically retired, but he’s fit to fight for what is right and to fight for people and for a better future for us all..

**I am happy to discuss this or other issues with you.**

## What is cannabis?

To many people it's simply a drug. But it's not just about getting high. It is one of the most useful plants on earth and one of the broadest issues in the political spectrum. It is a valuable resource and a natural medicine.

Millions testify to the medicinal powers of cannabis and it could replace profit-driven pharmaceutical drugs that often have terrible side effects, reducing costs to the NHS.

I challenge the justice in punishing people who wish to use a plant to their benefit and do no harm to others.

Whether people consider themselves medical or recreational users, if they do no harm and cause no nuisance, leave them alone and concentrate on the real problems. Prohibition is a costly failure.

## Why Legalise Cannabis?

Legalisation will enable research and investment into the beneficial uses of the plant. It will help reduce damage through drug misuse, crime and unnecessary pollution. Cannabis can also be used to make cheap, safe and environmentally-friendly fuel. The seed is one of the most nutritious on earth and a source of oil. *Billions* of pounds would be saved each year and extra revenue could be raised through taxation. Pollution would be cut. The young and vulnerable protected and any risk of harm reduced.

## Why vote LCA?

**The Legalise Cannabis Alliance offers YOU a brighter future if we can convince the Government to listen.**

A strong vote will send a clear signal to the next Government that we believe the law against cannabis is unjust and not in the public interest, whether we smoke it or not.

**VOTE**
