

VOTE JOHN WAKELIN

LEGALISE CANNABIS ALLIANCE

I am 37 and have lived with cerebral palsy since birth. My working and educational background is mainly in social care and community arts. I completed a Fine Arts degree in 1994 and have been involved with local festivals and community groups.

I have smoked cannabis (mainly medicinally) for over 20 years in which time attitudes have slowly changed for the better. I have tried many prescription drugs to combat the wide-ranging and painful effects of my disability. Only cannabis has provided holistic relief. It is certainly a beneficial plant! People in need should be allowed to grow their own cannabis - this will take it out of the criminal market and separate it from hard drugs.

If elected to the council, I want to implement your wishes and serve to benefit anyone who wishes to be heard whatever their background or ability level. It's time to break out from our spoon-fed mentalities and express ourselves creatively. Let's have some more *humanism* in Norfolk!

I hope people in Norwich will refuse to believe the political parties' spin which has so affected us under Blair's utterly disappointing government and stand up for our Rights in this election.
