

ELECTION COMMUNICATION  
GREAT YARMOUTH CONSTITUENCY  
PARLIAMENTARY ELECTION MAY 5TH 2005

## ***TIME FOR A CHANGE?***

### **LEGALISE CANNABIS ALLIANCE**

***Legalisation would reduce crime, protect our children and make our streets safer and cleaner.***

***Cannabis bio-fuels in our homes, cars and buses would cut down on pollution and improve the air.***

***Legalisation would save the country BILLIONS each year and increase revenue for better services and lower taxes.***

***People who suffer from a wide range of problems like MS, arthritis, pain and depression would benefit from being allowed to grow or obtain the plant, saving a fortune on National Health costs.***

**VOTE  
MIKE  
SKIPPER**

Produced, published and promoted by Daphne Douglas for and on behalf of Michael Skipper, both of 56 St Georges Road, Great Yarmouth and the Legalise Cannabis Alliance, PO Box 198, Norwich.

Printed in Great Britain by:

**My name is Michael Skipper and I am standing in this election for the Legalise Cannabis Alliance because I want to try to make changes and improve living conditions for us all particularly in areas of high deprivation. The authorities should put people and the environment before big business and profits. I would encourage local development to use local resources and labour where possible.**

**I would like to see more encouragement for local artistic talents and skills, better health care and social facilities for all, away from the tourist front. This would re-invigorate Yarmouth and promote community cohesion.**

**And what does legalising cannabis have to do with that? Please read on.**

## **A VOTE FOR LCA IS A VOTE FOR YOU**

**Please don't let the word "cannabis" put you off, after all, it is a plant that grew naturally and was used widely here for centuries.**

**Also called hemp, it has many uses, from the production of valuable medicines to pollution-free fuels. Use of those fuels would cut down on pollution and improve the air and the health of us all.**

**It's local cultivation and use for paper, plastic and building materials would boost employment and the local economy.**

**Legalisation of cannabis is about more than just a token. Cannabis use does not usually make people violent or aggressive in the way that some people are effected by using alcohol.**

**Please do not hesitate to contact me:**
